Banking and Capital Markets

Luxoft
A DXC Technology Company

DXC Luxoft is the design, data and development arm of DXC Technology, providing bespoke, end-to-end technology solutions for mission critical systems.

As experts in Banking and Capital Markets technology and solutions, we are a trusted provider of change, modernization and run services. We partner with leading technology firms to offer an ecosystem of innovative products, technology and talent, that empowers our clients to lead the industry. We are fluent in financial services, with decades of experience enabling clients to advance in challenging environments.

Banking

► How we help clients

Platform modernization

Unlock the benefits of modern, best-in-class technologies.

New operating models

Take advantage of modular subscription-based operating models to increase flexibility and improve time-to-market.

Exceptional customer experience (CX)

Increase personalization and ensure omnichannel customers are treated fairly, whichever channel they choose. Keeping customer experience consistent.

Greater efficiency

Address regulatory compliance and avoid relying on legacy technologies.

► Our solutions

Core banking modernization

Microservices-based progressive modernization for core banking, for a full or part replacement journey for Temenos.

Connected Bank as-a-Service

Complete and fully scalable, a digital banking solution, hosted in the cloud and offered on a modular, subscription basis.

Default management automation

DXC's industry-leading EarlyResolution™ smart product provides call and workflow automation plus standardization for default management.

Next generation wealth management

Our modernization blueprint offers a handpicked mix of best-in-class software products from leading wealth-tech firms.

Payments

Hosted products and BPO for payments and card management.

Bespoke engineering and technology advisory

Technology and domain expertise, delivering complex problem-solving and creative innovation for challenging, large-scale assignments.

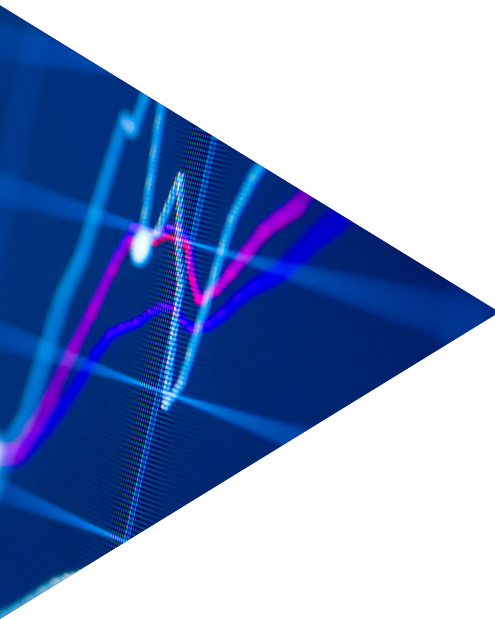

► Sectors we serve

Retail banking
Wealth managers

Commercial banking
Private banks

Consumer lending

Helping forward-thinking banks navigate an increasingly complex operational and regulatory environment

Capital Markets

Resolve risk, compliance and trading issues as you look beyond client expectations to outperform the competition and deliver better business outcomes

► How we help clients

Optimize for profit

Business-optimizing technology enables better business decisions and increased profits.

Transform middle and back office

Operations and technology transformations lower costs through improved deployment of capital and streamlined processes.

Resolve legacy systems

Address technology estate to improve time-to-market, reduce costs and improve productivity.

Navigate the data deluge

Derive business insights from data and democratize data science capabilities.

Engineering at pace and scale

Access global engineering talent and scaled Agile methodologies to improve productivity and deliver change at speed and optimal cost.

► Our solutions

Full-stack trading and risk solutions

Integration and managed services of industry-leading trading and risk platforms including Murex and Calypso.

Treasury as-a-Service

Front-to-back treasury and trading solutions with Coremont and Finastra.

Middle and back office solutions

Integration and managed services of leading industry platforms supporting real-time liquidity management and regulatory reporting.

Client lifecycle-management solutions

Solution integration and professional services capabilities across CLM and KYC, building upon our platinum partnership with Fenergo.

Bespoke engineering and technology advisory

Technology and domain expertise, delivering complex problem-solving and creative innovation for challenging, large-scale assignments.

► Sectors we serve

Asset management

Market infrastructure

Investment banking

Hedge funds

Corporate treasury

Why DXC Luxoft?

In-depth BCM experience

Experts in Banking and Capital Markets technology and solutions, we are a trusted provider of simplification, modernization, and change and run services. Our proven and repeatable processes bring digital experience concepts to life, ensuring we get things right first time with minimal disruption.

Broader domain knowledge

Our teams are fluent in financial services. They understand the nuances of compliance and the critical importance of keeping pace with regulatory changes. Also, that putting the needs of customers, employees, partners and suppliers at the center of your data-driven transformation optimizes the user experience.

Technological independence and strong partnerships

While accelerating growth we solve your legacy-system issues, protecting existing investments with technologically independent solutions and the support of our top-tier partner network.

Bespoke engineering and data-driven business outcomes

Solving complex problems lies at the heart of our individually tailored approach, as does providing creative innovation for challenging and large-scale engagements. Working with near real-time data enables intellectual property, adding extra business value and improving on-time delivery.
